fenestration systems

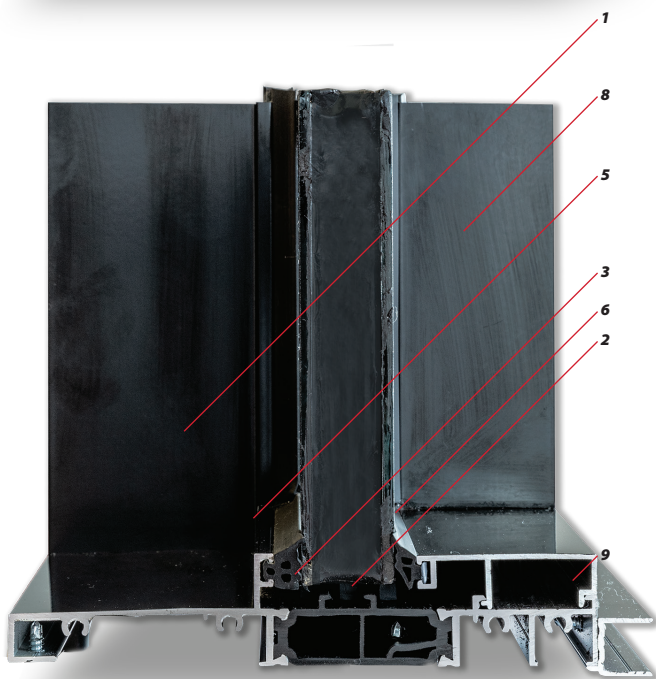

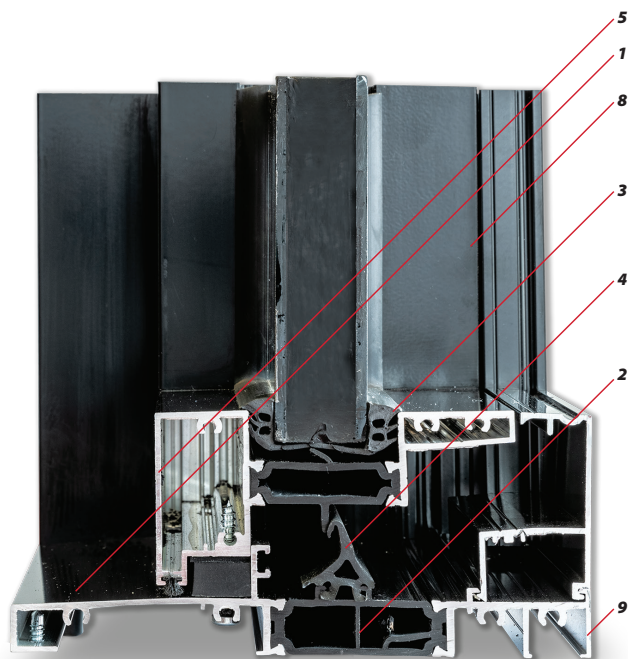

*Allure* SERIES  
ALUMINUM CASEMENT

## BENEFITS

- ◆ Entirely made of aluminum ◆ Superior durability
- ◆ Structural resistance ◆ 8% increased light entry

## DISTINCTIVE STRUCTURAL STRENGTH

FOR CREATING LARGE DURABLE AND SAFE ASSEMBLIES

## CONTEMPORARY PRODUCT

PERFECTLY HERMONIZING WITH OUR pure SERIES  
INNOVATIVE SYSTEMS

## CASEMENT

## WINDOW section

○ Operating    f Fixed

1. 6" frame for better positioning in the wall.
2. Geon 6935 thermal barrier.
3. Flexible non-conductive glazing weather stip.
4. ○ Double row of interchangeable weather stripping for superior water and air thightress.
5. f Minimalist 5/8" frame for maximum brightness.  
○ 1 7/8" contemporary shutter.
6. f 3/8" ethafoam tube reducing conductivity around the glass.
7. ○ 3rd articulated arm for shutters over 21", adjustable mechanism screwed securely into the aluminum extrusion. 90 degree-opening.
8. Various pre-drilled frames to facilitate installation without visible screws.
9. Option : optional J-moulding for gypsum return \* + 1/12" and 2 1/2" extensions for optimal positioning.
